INTERNATIONAL CONFERENCE OF JURISPRUDENCE OF MINORITIES IN THE LIGHT OF THE HIGHER OBJECTIVES OF ISLAMIC LAW

KHALED NORDIN: UNIVERSITIES MUST MARKET OWN INNOVATIVE PRODUCTS

IIUM AND JAKIM COOPERATE TO ENHANCE ISLAMIC KNOWLEDGE

PROF. YUSUF AL-QARADAWI DONATES RM40,000 TO IIUM ENDOWMENT FUND
IIUM Library’s collection continues to grow with your help

Growth of the collection is at the heart of the library’s activities. It is initiated by receiving recommendations for library materials such as books, journals (print or electronic format), audio visual materials, etc. With the budget allocated by our University, purchasing of library materials is continuously done throughout the year.

Since the faculties have the most influence in the learning process, the IIUM Library welcomes your participation in the process of selecting library materials. One of the main sources for selecting suitable titles for the library collection is lecturers’ course outlines. The reading lists in it are given high priority for purchase. In addition, you may recommend library materials that address your curriculum and research-related needs by:

- Using Acquisition Request Form - available at Library Information Desks/Library Homepage, or
- Emailing/phonating your suggestion to respective Liaison Librarians in-charge of your Kulliyyah, or
- Submitting marked titles on publisher catalogs/web printout/list of titles/handwritten to your Liaison Librarians, or
- Selecting library materials during Book Fair or at Publishers’ showrooms / warehouses

The IIUM Library also welcomes donations that will enrich and enhance its collection. You can forward the donations to the Information Desk or direct them to your Liaison Librarian. However, inclusion to the Library collection will be decided by the Library Management.

For more information about how books and other materials are selected and acquired, see http://www.lib.iu.edu.my/neu-qubix/index.jsp?module=viewSubmission&action=home.jsp

Online Database of the Month

Index Islamicus

Index Islamicus database indexes literature on Islam, the Middle East and the Muslim world. It is produced by an editorial team working at the School of Oriental and African Studies in London. The team was established to transmit knowledge about Islamic and Middle East studies, which have traditionally been part of the curriculum of SOAS.

Records included in the database cover almost 100 years of publications on the world of Islam commencing from 1906 until current. This database should be the first source of information for those who are seeking anything related to Islam.

News Alert

1. The library would like to request all lecturers to submit your course outlines to the library. This is especially to those who have made updates to the required or recommended readings. By doing this, we can ensure that the titles are made available with enough copies in the library.

2. The library is in the process of migrating to a new library system. Soon a new library catalogue/OPAC and a new library homepage will be out for all to use.

3. The Library wishes to thank all the library customers who have visited the 2009 Client Day held on 21st-22nd December 2009. Hope to see all of you again next year.
